

“Suicide is Everybody’s Business”

Nevada 2017
Community Partners for Better Health
Mental and Behavioral Health
SYMPOSIUM

Save The Date

Thursday, September 28, 2017

9am— 4:30 p.m.

Gold Coast Hotel

Nevada's suicide rate is among the nations highest. The #1 cause of death for the 15-25 age group is suicide. Opioid and drugs addictions have major links to suicide

Join us in collaborative dialogue with key resources and local specialists in this unique symposium to explore and craft a community approach to suicide prevention

TOGETHER WE CAN

- ◆ Change the Conversation from Suicide to Suicide Prevention through actions that promote healing, help and save lives
- ◆ Raise awareness, and focus efforts on directing treatment to those who need it most.
- ◆ Understand and recognize the different risk factors, signs, symptoms, and ways that communications can support suicide prevention
